TWO CENTS.

SPECTACULAR TURNS NOW LOOKED FOR IN FALL-SINCLAIR TRIAL

Case Enters on Second Week, With Both Sides Girded for Fight.

DEFENSE SATISFIED WITH PROGRESS MADE

Siddons Expected to Rule on Admitting Evidence Given in Senate Inquiry.

By ALBERT W. FOX.

The second week of the Fall-Sinclair conspiracy trial will be ushered in this morning with every prospect of important and spectacular developments in the great legal battle being fought out in Criminal Court No. 1 of the District Supreme Court, Justice Frederick L. Siddons, presiding.

Owen J. Roberts and Atlee Pomerene, Government special counsel, and District Attorney Peyton Gordon are seeking to lay the groundwork for the charge that former Secretary of the Interior Fall and Harry F. Sinclair, New York oil magnate, conspired with each other to defraud the United States in connection with the lease of Teapot Dome.

Defense counsel, comprising Martin W. Littleton and George P. Hoover for Sinclair, and William E. Leahy and Mark B. Thompson for Fall, are endeavoring to break down the Government's preliminary testimony as fast as it is brought to the notice of court and jury.

Last week the Government sought to establish through its star witnesses, Assistant Secretary of the Interior E. C. Finney and K. C. Heald, a former Government geologist, that Fall took upon himself the task of handling the Teapot lease, that this matter was handled in an irregular way and that there was no such danger of drainage as the defense will claim as the prime reason for getting the oil from the naval reserve in storage above ground instead of leaving it in the ground.

Evidence Welcomed by Defense.

Both of these Government star witnesses gave testimony which was obviously welcome to the defense. The stifling of Finney's testimony at this time by Roberts and the dramatic appeal of Fall to the court that Finney be allowed to tell what he knew and clear the matter up "two minutes" was the high spot of last week's developments.

Littleton's cross-examination of Heald, bringing out the admission that the latter passed only an hour on the reserve, and Littleton's enlivening questions about the Wyoming snow-storm forced Roberts to battle desperately to prevent his own witness from answering questions about his geological investigation. But Roberts was uniformly successful in his defensive tactics and many facts which the defense hoped to bring before the jury were nipped in the bud.

There will be similar incidents this week, after Justice Siddons decides the question of whether or not Sinclair's testimony of December 4, 1923, before the Senate Committee on public lands, can be used in this trial. This decision may be rendered when court convenes this morning. It will be of far-reaching legal import as a precedent but will not make much difference in the present case.

The Government wishes to bring before the jury Sinclair's statement to the committee that he went to Three Rivers to consult Fall about the Teapot lease. Littleton in his opening statement to the jury in this trial said Sinclair discussed this lease with Fall on that occasion but that his immediate purpose in going to Three Rivers was to take up a matter in connection with Indian lands. In the Senate testimony Sinclair refers to this latter aspect of his mission as well as to his talk about Teapot Dome.

Placer Claims in Issue.

Roberts follows the anticipated plan he will put witnesses on the stand early this week to establish the Government's contention that the placer mining claims on the Teapot reserve were of practically no value and that Sinclair's payment of \$1,000,000 or so to quiet these claims constitutes an unusual and significant circumstance in the evidence which the Government is developing.

L. C. Eddy, who was in the General Land Office in charge of the matter of leasing oil lands, and Roy W. Tallman, who was special agent of the Land Office, will be put upon the stand as Government witnesses.

Tallman will testify as to conversations he had with Fall relative to the number of claims closed out and dead, and he will assert that only five applications were found in the record and that he went out to look at the Pioneer Oil Co.'s claims in 1920.

This evidence the Government regards as important. But the defense will rely upon cross-examination of this witness, and there may be another edition of the episodes featuring Littleton's cross-examination of Heald. In other words, the defense is expected to seek to show the jury how much personal investigation Tallman made, how much he knew about locations of the various claims, their abandonment.

Sites Inspected for New 5,000-Watt WRC Plant

Sandy Spring Favored for Location of Powerful Apparatus Which National Broadcasting Company Is Held Likely to Install.

By ROBERT D. HEINL.

On the chance that station WRC finally may be able to obtain the 5,000-watt transmitter now being held in reserve by station WEAF in New York, officials of the National Broadcasting Co. here, it has been learned, have been looking over tentative sites on which the more powerful transmitter might be erected between Washington and Baltimore.

Lael apparently was considered too far away, but the vicinity of Sandy Spring, it seems, has been looked on with more favor. The ideal location appears to be about 8 or 9 miles out. It is thought, however, that regardless of whether or not it eventually comes to Washington the former WEAF set will be held in reserve for at least six months until the new WEAF 50,000-watt transmitter at Belmont, Long Island, gets into its stride, inasmuch as it usually takes about that length of time for a new radio station to be "shaken down" into reliable working order.

"It is now we reach even nearby Baltimore and Richmond spasmodically, CONTINUED ON PAGE 2, COLUMN 6

PATRON CRACKS GROCER'S SKULL WITH MEAT-HOOK

Man Flees Without Loot as Woman Enters Northwest Store.

RUG THIEVES ARE ACTIVE

The timely arrival of Mrs. Esther Bonnett, of 213 Tenth street northwest, yesterday at the store of David Kurland, 65 years old, a grocer, of 1422 Seventh street northwest, probably saved him from death and robbery at the hands of a negro assailant. The negro had attacked the grocer with a meat hook a few moments before she entered the store. He fled at her approach.

The assailant entered the store under the pretense of purchasing a chicken. With Kurland, the negro surveyed the poultry in the front of the store, but decided he wanted a heavier chicken, so the grocer led him to a rear room.

As soon as the two entered the room the negro started beating Kurland on the head with a heavy meat hook, but stopped short when Mrs. Bonnett entered the store to make a purchase.

As the negro passed her Mrs. Bonnett inquired as to the source of groans from the rear of the store, but the assailant left the store and fled. Investigating, she found the grocer semiconscious, his head bleeding. She called police. Patrolman Harold Hodges and Detectives Harry O'Dea and Edward Kelly responded.

Japanese Airship Hits Sea and Burns

Tokyo, Oct. 23 (A.P.)—The Japanese airship N3, while participating in naval maneuvers today was forced to descend into the sea off Izu Peninsula because of engine trouble. On touching the water the airship burst into flames. The crew was rescued, but one member was seriously injured.

PHYSICIAN SERIOUSLY INJURED IN CAR CRASH

Dr. Mary Holmes, Unconscious, Taken to Hospital; Other Driver Held.

Dr. Mary Holmes, 40 years old, who has offices at 1400 M street northwest, was injured seriously last night when the car she was driving was in collision with another automobile, operated by George Francis Brooks, 26, colored, 621 Navy place southeast, at New Jersey avenue and M streets northwest.

Dr. Holmes, unconscious, was taken to Sibley Hospital, where, it was disclosed, she was suffering from internal injuries, fractures of ribs and cuts. Brooks was held at the Second Precinct station for investigation. John Campbell, colored, 56 years old, 621 Navy place, who was riding with Brooks, also received slight injuries of the head.

According to police, Dr. Holmes was driving east on M street northwest when the accident occurred, and Brooks was proceeding north on New Jersey avenue.

Fall From Hospital Window Kills Lawyer

Chicago, Oct. 23 (A.P.)—James E. McGinley, 61, Chicago lawyer, leaped or fell to his death from the fourth Floor Hospital this morning.

Upon returning to his room after a few minutes' absence, his nurse noticed an open window and saw his body below. He was dead when attendants reached him. He had entered the institution last Saturday. Mr. McGinley was born in Chicago and served as a member of the legislature in 1902. He leaves a son and three daughters.

HOME-TOWN POSSE ON WAY TO AID HUNT FOR PASTOR'S WIFE

Mayor, Police Chief and Canandaigua Sheriff Coming to Capital.

SEARCHERS SPEEDING BY TRAIN AND AUTO

Death of Preacher's Father Believed Hastened by Her Disappearance.

Speeding by automobile and on train an official posse of leading citizens of Canandaigua, N. Y., was en route to this city last night to join in the search for Mrs. Anne Ramsey Forbush, young wife of the Rev. Dascom Forbush, pastor of the First Congregational Church of Canandaigua, who vanished four nights ago from Keith's theater and has not been seen since.

This became known here last night through Associated Press dispatches from Canandaigua.

The posse, the dispatches related, is headed by Mayor William McFarland, who, accompanied by a group of citizens, left Canandaigua on a fast train for the city last night. Another party, which left in automobiles, included Sheriff John C. Boles of Ontario County; Police Chief Thomas Kinsella and Dr. Henry C. Burgess, noted alienist.

Organization of the posse hurriedly was affected yesterday after it was learned the Rev. William Byron Forbush, of Philadelphia, father of Mr. Forbush, had died yesterday in that city and it was feared the search for Mrs. Forbush might slacken if Mr. Forbush went to Philadelphia for the funeral.

Vigorous and active at the age of 70 years, Gen. Dickman was apparently in good health. Saturday evening he passed with friends at the Army and Navy Club, and appeared unusually well.

Distinguished for his record as a cavalry officer, and the recipient of decorations from this Government and five foreign nations, Gen. Dickman was retired from the United States Army October 5, 1921, after 45 years of service. He has since made his home in Washington.

A native of Dayton, Ohio, he was graduated from the United States Military Academy in 1881, and appointed a second lieutenant in the Third Cavalry the same year. With the exception of three years passed in the inspector general's office, all of his service was in the cavalry until he reached the grade of lieutenant colonel.

Gen. Dickman was graduated with honors from the Infantry and Cavalry School in 1883, and in 1905 was graduated from the Army War College here. He was chief of staff of the China

Mrs. Marshall Field Seriously Ill Abroad

(Special Cable Dispatch.)

Paris, Oct. 23.—Mrs. Marshall Field is the second time the citizenry of Canandaigua have organized to search for Mrs. Forbush. About ten years ago following an attack of influenza she disappeared from her home. Posse were organized and all business houses in the town were closed while the citizens for three days searched 200 square miles of thickly wooded countryside for her.

When she was found crouching in a thicket without shelter or food an impromptu celebration was staged and the citizens joyfully paraded through the streets while the town bell tolled the news of the discovery of Mrs. Forbush.

Dr. Forbush is able to give only one explanation of his wife's strange disappearance. Since she suffered the attack of influenza she has at intervals

Hankow and Nanking Governments Break

Hankow, Oct. 23 (A.P.)—The political council of the Hankow government announces a severance of all relations with Nanking, which is accused of breaking all promises to Wuhan. The commissioner of foreign affairs has named all consular representatives to this effect.

The commander of the retreating Wuhanite fourth army has mined the Yangtze River midway between Nanking and Wuhan for a distance of about 100 miles and Chinese and foreign steamers can not pass without permission from the local military authorities.

Mrs. Field has been ill for more than a month.

DUEL AT A CARNIVAL; BOTH MEN ARE SHOT

Husband Tears Mask From Face of Wife and Kills Her Companion.

Santiago, Chile, Oct. 23 (A.P.)—A pistol duel in which one man was killed and the other so severely wounded he succumbed later was an incident of Santiago's gay carnival yesterday.

As the traditional masked parade was moving slowly along early in the evening, Martin Garetto, a well-known business man, ran out from the center of the crowds of spectators lining Estado street and climbed into one of the brilliantly decorated automobiles.

He snatched the mask from the face of a woman garbed as Pierrette; it was his wife, Elena Ibanez Ovalle de Garetto. Manuel Rivero Almude, dressed as Pierrot, was riding in the same car as Elena, hastily jumped from the car, and in a moment Garetto was in the air in a fierce pursuit of him.

The pair ran through the throng of costumed merrymakers, and finally Almude was trapped in a doorway. He drew a pistol and shot and wounded Garetto, and the latter, returning the fire, killed him.

Old Tar, in Rowboat, On 1,500-Mile Trip

New York, Oct. 23 (A.P.)—Declaring his intention to row a 12-foot boat 1,500 miles to Miami, Fla., Charles Seltz, 67, showed off today from the Battery with an altitude of about 2,000 feet. Seltz, who was about 23 years old, was a son of W. C. Davis, publisher of the *Irish* (Colo.) Record.

According to police, Dr. Holmes was driving east on M street northwest when his accident occurred, and Brooks was held at the Second Precinct station for investigation. John Campbell, colored, 56 years old, 621 Navy place, who was riding with Brooks, also received slight injuries of the head.

Upon returning to his room after a few minutes' absence, his nurse noticed an open window and saw his body below. He was dead when attendants reached him. Two Plunge to Death When Parachutes Fail

Los Angeles, Calif., Oct. 23 (A.P.)—W. S. Lessman, Jr., of Los Angeles, was killed at a flying field here today when his parachute failed to open after he had leaped from an airplane at an altitude of 2,000 feet. Lessman was a son of W. C. Davis, publisher of the *Irish* (Colo.) Record.

According to police, Dr. Holmes was driving east on M street northwest when his accident occurred, and Brooks was held at the Second Precinct station for investigation. John Campbell, colored, 56 years old, 621 Navy place, who was riding with Brooks, also received slight injuries of the head.

MAJ. GEN. DICKMAN DIES; IS HEART DISEASE VICTIM

Decorated by Six Countries for Services as Corps Commander in War.

BURIAL RITES TOMORROW

Maj. Gen. Joseph Theodore Dickman, retired, commander of the Third American Army in France, and survivor of six major campaigns of the World War, died yesterday in his home, 1870 Wyoming avenue northwest, following a heart attack.

Vigorous and active at the age of 70 years, Gen. Dickman was apparently in good health. Saturday evening he passed with friends at the Army and Navy Club, and appeared unusually well.

Distinguished for his record as a cavalry officer, and the recipient of decorations from this Government and five foreign nations, Gen. Dickman was retired from the United States Army October 5, 1921, after 4

SIMPLIFIED TAX ACT DRAFTED TO ASSIST IN MAKING RETURNS

Joint Committee of Congress
Meets Today to Consider
Proposed Revision.

INDEX IS INCLUDED TO GUIDE TAXPAYERS

All Rates Grouped in Single
Section to Make Them
Better Understood.

(Associated Press)

An attempt finally to put the Nation's income tax laws into a form slightly more comprehensible, at least, to America's multitude of taxpayers, will be undertaken in revision of the revenue bill at the coming session of Congress.

The joint tax committee of Congress will meet with a view to simplifying the complex system governing income and other internal tax payments.

A new draft of the revenue law, without material change in the text, has been prepared and it is the hope of the joint committee that the new, simplified, and sensible bill will be merchant, business man, doctor, lawyer and even the bootlegger to make a successful personal attempt to find out how much he owes the Government.

Index Provided in Draft.

The numerous provisions of the law have been arranged with all the rates in one section and with even an index to guide the confused taxpayers, most of whom have been forced in the past to seek the services of experts at considerable cost.

However, little hope is held forth of making the index and return sheets any simpler and smaller. It is the present view of the committee that these blanks have been reduced to as plain a fashion as safety permits.

The joint committee, which includes the ranking members of the Senate and the House, always has a tax committee was created by the last revenue bill to supervise conditions in the Internal Revenue Bureau, as well as to work out a simplification of the law, and it will have some important reports to consider this week in connection with the new tax.

The committee's session will serve as a prelude to the opening of hearings next week by the House ways and means committee on tax revision when actual work will be started on the drafting of the new tax reduction measure.

Trained Nurse Sues For Maryland Divorce

William R. Sherman, public accountant, with offices formerly in this city, was named defendant in a suit for absolute divorce in Cumberland, Md., filed by his wife, Mrs. Sarah Conley Sherman, a trained nurse employed in this city. Mrs. Sherman was the custodian of their 3-year-old son, William R. Sherman, Jr., several months ago, after obtaining a separation from her husband, whom she married six years ago. The petition for divorce charges unfaithfulness.

Mrs. Sherman went to Cumberland several days ago in an effort to collect temporary alimony, which she alleges her husband owes her. Mrs. Sherman told the court she was unable to locate her husband at his last known residence in Cumberland.

Sherman recently filed charges with Maj. Edwin B. Hesse, local chief of police, against Policeman John B. Yoder. The charges will be heard soon before the police trial board.

\$30,000 in Estate Of Rockville Man

Jacob Poss, former Mayor of Rockville, Md., who died last week at the age of 88 years, left an estate valued at approximately \$30,000. Under the terms of his will, admitted to probate in the Orphans' Court at Rockville, his children and a grandson will share equally in the estate, which includes Rockville real estate and securities.

The will, dated December 31, 1923, names Harry G. and Bernard Poss, son and wife, William F. Pretzman, Rockville attorney, as executors. The bequests' names are: Henry G. Bemar, Claude, Clyde and William Poss, sons; three daughters, Mrs. Rhoda Welsh, Mrs. Ethel R. Carr, Mrs. Lillian Robert, and William Felka, a grandson.

Payment of Rent For Trenches Denied

The War Department has again denied the rumor that American forces in France in the World War were made to pay rent for the trenches in which they fought.

It is probable, the department says, that belief that rent was paid for trenches had its origin in customary practice of the交战双方 to demand of, and damage to, drill and maneuver grounds on private property, wherein trenches were built for instruction.

4 From Capital Get Licenses at Elkton

Marriage licenses were issued to the following Washingtonians at Elkton, Md.: Saturia H. Heider, 41 years old and Miss Nannie Jenkins, 43 years old; Helen W. Wivel and Paul N. Anderson, the latter of Baltimore, Md., and Andrew J. Schmoeck, 34 years old and Helen Rachel Ostrom, 31 years old, of Goshen, Md.

Dry Squad Arrests 2 As Hunting Squirrels

As a result of the activity of a Montgomery County squad of policemen in search of violators of the prohibition act, two Washington men may have to pay a high price for squirrels.

While searching for a still Saturday afternoon, the squad ran across Timothy F. Sullivan, and William E. Lassure, of this city, who, they say, were leisurely hunting out of season, and they arrested them. They had four squirrels, and professed ignorance of the law, the officers declare, and they required them to deposit \$27.50 each for their appearance for trial.

The squad, composed of Sergt. Leroy Rodgers, Dean Wilkinson, Lawrence J. Clagett, and Roy Bodner, reported that they found the still they were looking for. A small quantity of alleged corn was confiscated, several barrels of mast were destroyed, they reported, and Adelbert T. Pennington, Floyd Pennington and Bush Eads were arrested, and required to furnish bond for their appearance in Police Court in Rockville.

6 IN SERIOUS CONDITION FROM GRAND STAND FALL

Total of 94 Treated for Hurts
After Saturday's Game,
Richmond Estimates.

MANY YET IN HOSPITALS

Richmond, Va., Oct. 23 (A.P.)—Six persons were reported in a serious condition tonight from injuries suffered yesterday when a section of the stands at Mayo Island Park collapsed as spectators rose to cheer a brilliant play in the football game between Virginia Military Institute and Maryland. Many others were suffering from cuts, bruises and other injuries, but the majority had left hospitals today for their homes. Those reported seriously injured were:

Robert Dupres, Richmond, fractured skull.

Miss Mary Anderson, Richmond, fractured pelvis.

Mrs. Frances Everett, Suffolk, fractured pelvis.

Dr. R. H. Wright, Richmond, injuries not definite, but in serious condition.

John G. Richford, Richmond, fractured vertebrae.

Edmund Preston, Richmond, suffering from heavy blows from timbers with injuries to his head.

Newspaper estimates tonight placed the actual number treated for injuries at 94, although there were other instances of minor cuts and bruises that were not reported through an official source.

Probably fifteen persons were receiving treatment tonight in addition to the six reported in a serious condition, but their injuries were said to be of temporary nature, largely contusions and cuts. Sprained and broken ankles, both arms and fractured ribs were still being treated, but the patients were expected to be released in the general election.

"There can be no concealment of the bad fact that there is a great if not total lack of Western and Southern farmers but fair-minded men in all walks of life, want a national administration that is sympathetic with agriculture, informed on its problems and courageous enough to lead in the development of a new national policy aimed to promote farm stability and prosperity. Agriculture States are in better position to succeed this year than they have been at any time in the past 50 years. To accept seriously the program which Senator Borah seems to be heading, would mean throwing this chance away."

Agriculture States are in better position to succeed this year than they have been at any time in the past 50 years. To accept seriously the program which Senator Borah seems to be heading, would mean throwing this chance away."

"There can be no concealment of the bad fact that there is a great if not total lack of Western and Southern farmers, but fair-minded men in all walks of life, want a national administration that is sympathetic with agriculture, informed on its problems and courageous enough to lead in the development of a new national policy aimed to promote farm stability and prosperity. Agriculture States are in better position to succeed this year than they have been at any time in the past 50 years. To accept seriously the program which Senator Borah seems to be heading, would mean throwing this chance away."

SNYDER-GRAY CASE APPEAL TO BE MADE TO JUSTICES TODAY

Court Will Pass on the Motions for a New Murder Trial.

CORSET MAN BELIEVES HE WILL ESCAPE CHAIR

Widow of Victim Is Nervous and Excited on Eve of Plea.

Special to the Washington Post.

New York, Oct. 23.—The fate of Ruth Brown Snyder and her former admirer, Henry Judd Green, will be passed in the hands of five justices of the Court of Appeals of Albany tomorrow. They will pass on motions for a new trial to be made by Edgar Hazleton, counsel for the woman, and Samuel L. Miller, representing the condemned man.

If the attorneys run true to the form they showed at the famous Snyder trial, when Gray, hollow-cheated corset salesman, and gladiator of the cabaret arenas, turned on his sweetheart and talked her into the death house, they will present a marked contrast to tomorrow's proceedings.

Their position is expected to make an impassioned plea for the new trial which his blonde client, who administered the coup de grace to her art editor husband, Albert, with a sash weight after her lover faltered, is seeking. He will have his idea on paper, but he was not given a fair trial before Supreme Court Justice Souder because Gray, on whose testimony she was convicted, was tried jointly with her.

Please to Be Unique.

His plea will be unique in that he will contend his client is guilty. He will say that she can be tried, and he will cite legal precedents that date back into the seventeenth century criminal courts of England.

Miller, a suave and forceful attorney, will tell the court of appeals that Gray was a novice in the law on the night of the murder, rendered so by the influence Ruth wielded over him.

Gray conferred with Miller in the Sing Sing death house last week, read the brief on the logic of which his life depended, and convinced himself satisfied with the document.

"I feel that I will get out eventually," Gray told death house guards. "Men often have won their way out of the death house. I have not given up hope."

Gray, 31, is not at all sure she will escape the electric chair. She was nervous and excited today. She has not seen the brief and the sketch of the argument which Hazleton has prepared.

Speed in Production Gained by Efficiency

New York, Oct. 23 (A.P.)—American industry produces as much with 67 men today as 100 men turned out in 1926, despite the shorter hours now prevailing, a study of efficiency by the National Industrial Conference Board reveals.

The highest specialization in the modern machine era occurred in the automobile industry, which in 1925 required less than a third as many workers to produce a given number of cars as it did in 1916, and yet, the leather and lumber industries show a least effect in this regard, the essential man power not being lessened materially.

DIED

BAILY—On Friday, October 21, 1927, at her residence, 1231 O street northwest, MARIA BAILY (nee Sibley) beloved mother of Mrs. Marion Bell Hull, in the seventy-fourth year of her age.

Bell, widow of the Taylor Funeral home, 920 M street northwest, died Monday, October 24, when services will be held at the home of Mrs. M. E. McKey, of Mount Vernon Place, M. E. Church, South, officiating. Interment at the cemetery of the family was made in the family plot in Wilmerding, Del. Relatives and friends invited to attend.

CARNEAL—On Sunday, October 23, 1927, at her residence, 1231 O street northwest, MRS. ELIZABETH ANN CARNEAL (nee Tamm) died in the seventy-fourth year of her age.

Funeral services at the chapel of John B. Wright Co., 1337 Tenth street northwest, were held at 1 p.m. on Monday, October 24, at 2 p.m. at the cemetery of the family.

WILLIAMS—Suddenly, on Saturday, October 22, 1927, at his home, 238 Massachusetts avenue, northwest, JOHN LEWIS, devoted husband of Lillian Williams, Reynolds resting at Y. L. Speare Co., 1000 Tenth street northwest. Notice of funeral later.

WILLIAMS—Suddenly, on Saturday, October 22, 1927, at 7:50 p.m., HARRY NEWELL, aged fifty-eight years, Gertrude E. Williams, Funeral of his late residence, 815 B street southeast, Tuesday, October 24, at 2 p.m. at the cemetery of the family and friends invited to attend. Interment Congressional Cemetery.

Will Rogers Terms
Morrow Diplomat;
Uses Armed Train

Special to the Washington Post.
Hollywood, Calif., Oct. 23.—Dwight Morrow is on his way to Mexico to become a diplomat, his diplomacy started early, in fact at the border, when he got into an armored train.

We needn't worry about him—those Morgan boys can generally take care of themselves. If the train is held up by bandits, I bet you the outlaws come out second best in any financial transaction. If the worst comes to the worst, he will float a loan and take their guns and horses as collateral.

These are anxious hours for old Amherst. Cal will stick by his classes—it's too bad he hasn't got a war to send some of them to. If Dwight gets away with Mexico in good shape, I hereby propose him as first ambassador to Russia.

Yours,

WILL ROGERS.

RUTH ELDER HAS COLD, SUFFERS SEASICKNESS

Flier, Tired of Being Below, Is
Eager to Take Air Again,
She Says.

AT LISBON TOMORROW

Lisbon, Portugal, Oct. 23 (By wireless to the Associated Press from the S. S. Lima).—Ruth Elder, American actress and corset salesman, and gladiator of the cabaret arenas, turned on his sweetheart and talked her into the death house, they will present a marked contrast to tomorrow's proceedings.

Never Felt Better in Life.

"I never felt better in my life," he said, when there was a lull. "No, banquent food didn't seem to do me any harm. The flight was in no way exhausting; hard work a few times but never exhausting.

"The spirit of St. Louis is in fine shape. We have a cockpit (one minute per minute) now than when it was new. But this looks like a good time to do it, so I'm going to have it completely overhauled. That's never been done since it was built, you know, and it's been almost 350 hours in the air. No it isn't destined for a museum yet, eventually it will now."

"What are you going to do next?" a loud dozen reporters asked.

"I have no plans," said. "I'm going to rest a few days and then make a short visit to Michigan flying, but not in the Spirit. I hope I don't have to go to St. Louis with the new cockpit."

The text of the Archbishop of Canterbury's letter to Bishop Barnes follows:

"You will not doubt my condemnation of the unseemly incident in St. Paul's. Not by an action of that sort can the cause of truth be reasonably set forward. You, too, speaking generally, I trust, that this has been evoked from cultured men, with scientific, philosophical, as well as theological knowledge, judging from the vehement reprobation of some of your recent utterances."

"Regarding these I probably have received publicly or privately, more condemnations than any one excepting yourself. I do not attach great weight to what I have heard described as the gorilla sermons."

"I believe you overestimate the cause of the unseemly incident in St. Paul's. Not by an action of that sort can the cause of truth be reasonably set forward. You, too, speaking generally, I trust, that this has been evoked from cultured men, with scientific, philosophical, as well as theological knowledge, judging from the vehement reprobation of some of your recent utterances."

"For myself, I can say at least your position on the biological question in itself is not clear to me. I understand it is one with which I personally have been familiar for over 50 years. This teaching, however admirable, is to the most not novel. I do not think those hearing you on the subject with interest and advantage would recognize themselves as 'wistful agnostics.'

"You can make that as definite as you like," he said. "I have no intention of doing that. No, I do not take any position, with the Department of Commerce or other Government agency. When I know myself what I'm going to do, I'll announce it."

Beyond saying that the tour proved the adaptability of modern equipment, Lindbergh was not comment on the results of his trip.

"Others will have to say whether the tour was successful," he said, and others were ready to do so. Through the Guggenheim, he statements were made to the press.

"I am not thinking much about the tour right now. I'm too busy. Dad lets his injunction to make good, and I had already determined to do that any how."

It will be nine years before Stout comes into the principle and accumulated earnings of the trust fund, provided the will, and then, according to the will, the estate does not become his unless his mother and whoever is president of the Illinois Merchants Trust Co. in 1936 are satisfied he is capable of handling it.

CONTINUED FROM PAGE 1.

and sure the estate never anticipated that much," he said. "I do not know what it is, \$25,000,000 is an exaggeration. Besides, I have three married sisters, and then there is mother. Frankly, I am not thinking much about the tour right now. I'm too busy. Dad lets his injunction to make good, and I had already determined to do that any how."

ALESSANDRI PARTY QUILS CHILE IN EXILE FOR BUENOS AIRES

Conspiracy Hinted as Cause for Action Against the Former President.

ARGENTINE ENVOY SAYS MATTER NOT DISCUSSED

Incident Between 2 Countries Declared to Be on Way to Settlement.

Santiago, Chile, Oct. 23 (A.P.)—Former President Arturo Alessandri, his son Herman, Senor Ernesto Barros Jarpa, former minister of foreign affairs, and Senor Luis Alberto Carriola, managing editor of Diario Ilustrado, left today for Buenos Aires.

Advices from Chile by way of Buenos Aires Saturday reported that Alessandri and a number of other prominent men had been ordered exiled by the Chilean government.

Buenos Aires, Oct. 23 (A.P.)—Developments in Chile are arousing keen interest in Argentina, for this country is indirectly involved in one of the incidents which is reported to have caused the exiles of Chilean President Arturo Alessandri, several former cabinet ministers and others.

The Argentine Ambassador to Chile, Ricardo Malbran, attended a dinner given by Luis Izquierdo, former premier and former ambassador at Washington, one of the men exiled. The dinner was held in honor of the former Argentine senator and former President Alessandri was present. It was asserted that at this dinner the Chilean government was discussed and a conspiracy against it was planned.

Ambassador Malbran, finding himself in a difficult position, offered his resignation to the Argentine government at the same time denying that any conspiracy had been planned at the dinner.

Late advices say that the incident is on the way to a satisfactory settlement with the aid of intervention by those who fear relations between Argentina and Chile might be endangered. Nevertheless, it is reported that the resignation of Ambassador Malbran is possible at any moment.

Porto Rican Bonds Offered to Bidders

The Bureau of Insular Affairs invites bids for \$475,000 worth of Porto Rican bonds, proceeds from which are to be used in building an irrigation system for the island. The bonds are 4½ per cent, due Jan. 1, 1967, payable \$75,000 a year from Jan. 1, 1961 to 1972, inclusive, the remaining \$25,000, on Jan. 1, 1973.

The right of the people of Porto Rico is reserved to redeem all or any of the bonds at 5 per cent above par with accrued interest on Jan. 1, 1939, or on any interest paying date thereafter. Bids will be opened at 2 p.m. Thursday in room 3042, Municipal Building.

Poindexter to Seek Seat in U. S. Senate

Spokane, Wash., Oct. 23 (A.P.)—Miss Poindexter, of Spokane, Ambassador to Peru, today announced his candidacy for the Republican nomination for United States senator from Washington.

He said he would resign his ambassadorship and enter the campaign next March. He will leave here tomorrow for Washington, D. C., en route to his post in Peru.

MRS. GRAYSON FORCED BACK AFTER REACHING CAPE SABLE

CONTINUED FROM PAGE 1.

the plane landed on the beach and the fliers and their wives were reunited.

Navigator Goldsborough explained the crew's confidence in the return flight in a crippled condition by the fact that they expected, if necessary, to land on the water and make repairs, and return to the shore. The outward flight lasted approximately 4½ hours. The return flight, mainly because the ship was lighter, was made in about 5½ hours despite the crippled engine.

Even the landing on the beach was accompanied by a thrill, it was learned later when Mrs. Grayson and her two companions sat down before the faithful fireplace which had warmed them for two days in the Hotel Blandford, to view the happenings of the day.

"Did you use any of your soup or coffee?" Mrs. Grayson was asked.

"Did we?" she chuckled. "We had to pour it all into the hydrometer apparatus in order to get the landing gear down for the landing."

Mrs. Grayson said that no decision as to the future of the expedition would be made until tomorrow. That the flight has not yet been abandoned seemed to be indicated by the fact that T. Edward Kinkade, the Wright expert, and Igor Sikorsky, the plane's builder, were immediately notified by telegraph to return. Kinkade had flown back to New York this morning after the take-off, while Sikorsky started over the road at the same time.

ARMY MAN IS ESCORT OF MISS TRUMBULL

Lieutenant Takes Her to Theater, but She Is Guest of John Coolidge at Game.

New Britain, Conn., Oct. 23 (A.P.)—Hundreds of persons who experienced a dramatic thrill Friday evening when they saw Miss Florence Trumbull and her father, Gov. John H. Coolidge, and a number of young men that took for John Coolidge, son of the President, learned today that Miss Trumbull was escorted to the theater by Everett M. Williams, of this city.

Williams, a graduate of Norwich University in 1927, is a second lieutenant in the cavalry division, officers reserve corps.

The romantics were only anticipating a bit, however, for on Saturday Miss Trumbull was a guest of John Coolidge at Amherst, and witnessed the defeat of the Amherst eleven by the little three' contest.

The shrewdest efforts are being made by the Government to limit the testimony of the Government's witnesses to such statements as the Government counsel believe will help their side of the legal battle in progress. This gives the examination and cross-examination of Government witnesses an interesting aspect to the spectators and what the witnesses are not permitted to say often assumes far more apparent importance than what they are permitted to reply to questions.

PASSENGER OF NOVICE Flier Meets Death

Mount Clemens, Mich., Oct. 23 (A.P.)—Bernard Albright, 20, of Detroit, was instantly killed tonight when an airplane in which he was riding as a passenger, crashed in a field near here.

The pilot, Hollis Woodworth, escaped with slight injuries.

Officials at the field from which the plane took off said Woodworth had no flying license and had made only a few solo flights.

Salt Lake City Blaze Causes \$400,000 Loss

Salt Lake City, Oct. 23 (A.P.)—The two-story warehouse and three-story business building of the Carpenter Paper Co., in the center of the business district here, were destroyed by fire tonight, with an estimated loss of \$400,000. Spontaneous combustion was believed responsible. Four fire companies fought the blaze for more than three hours before bringing it under control.

FALL-SINCLAIR TRIAL ON ITS SECOND WEEK

CONTINUED FROM PAGE 1.

Arthur W. Ambrose, who was the Government's chief petroleum technician and assistant director of the Bureau of Mines, will appear early this week as a defense witness. He worked on the draft of the lease with Secretary Fall and others and will testify that so far as he can recall he did not receive explicit instructions from Secretary Fall to secrecy, but that he understood that all naval matters were generally secret and that this was the reason for his treating the lease as confidential. Government and defense will endeavor to extract evidence in their favor from Ambrose, whom they have already been made clear.

The principal speaker at the meeting of the Republican women of Arlington County at the home of Mrs. A. J. Porter, Clarendon, Mrs. Jerome Lightfoot, of Washington, will speak.

A special meeting in the interest of the election of Charles R. Taylor candidate to chief of the county court, will be held in the Rogers Building, Ballston, tonight. Taylor will outline his platform.

The new officers of the senior class at Washington Lee High School are Ernest Wilt, president; Oliver Young, vice president; Josephine Kisseloff, secretary; Elizabeth Barnes, treasurer, and Bruce Hise, sergeant at arms.

Mrs. Florence E. Cannon will be the principal speaker at the meeting of the Ashton Heights Woman's Club in the community house tomorrow night. Mrs. Cannon will explain the marking of the ballot and will discuss the county system of government, comparing it with the maintenance and operation of the home.

The Del Ray Baptist Church will be represented at the annual State convention at Roanoke, Va., Wednesday and Thursday by Mrs. J. S. Sowers, wife of the pastor of the church, Mrs. Jeannette Broadbent, Mrs. Howard Simms, Mrs. Barnett and Mrs. John Spillman.

The monthly meeting of the Clarendon Citizens Association will be held tonight in the community hall.

The Rev. Delford Sheets, the new pastor of the Aurora Height Community Church, will be given a reception at the church tonight.

The Ballston Citizens Association tomorrow night will receive visitors from the Virginia and Roanoke communities. Among other matters to be discussed will be plans to take part in the water carnival.

ARLINGTON COUNTY REPUBLICANS PLAN WHIRLWIND FINISH

Banquet to Climax Meetings Is Slated for Every Night of Week.

SCHOOLS WILL CLOSE FOR WATER CARNIVAL

Senior Officers of Washington-Lee High School Are Announced.

ARLINGTON COUNTY BUREAU OF THE POST
Tel. Clar. 501 Clarendon, Va.
Determined to break into the Democratic ranks at the courthouse, the Arlington County Republican party, united as never before in its history, has completed plans for a whirlwind finish to the campaign.

The campaign committee at a meeting yesterday in the headquarters at Clarendon arranged for a series of mass meetings for the entire week which will wind up with a banquet at the Odd Fellows Hall, Clarendon, Saturday night.

The meeting tonight will be held at Hales Hill, Tuesday night; Arlington, Wednesday night; Potomac; Thursday night, Columbia Pike; and Friday night, Clarendon.

There will be a meeting tonight of the Republican women of Arlington County at the home of Mrs. A. J. Porter, Clarendon, Mrs. Jerome Lightfoot, of Washington, will speak.

A special meeting in the interest of the election of Charles R. Taylor candidate to chief of the county court, will be held in the Rogers Building, Ballston, tonight. Taylor will outline his platform.

The new officers of the senior class at Washington Lee High School are Ernest Wilt, president; Oliver Young, vice president; Josephine Kisseloff, secretary; Elizabeth Barnes, treasurer, and Bruce Hise, sergeant at arms.

Mrs. Florence E. Cannon will be the principal speaker at the meeting of the Ashton Heights Woman's Club in the community house tomorrow night. Mrs. Cannon will explain the marking of the ballot and will discuss the county system of government, comparing it with the maintenance and operation of the home.

The Del Ray Baptist Church will be represented at the annual State convention at Roanoke, Va., Wednesday and Thursday by Mrs. J. S. Sowers, wife of the pastor of the church, Mrs. Jeannette Broadbent, Mrs. Howard Simms, Mrs. Barnett and Mrs. John Spillman.

The monthly meeting of the Clarendon Citizens Association will be held tonight in the community hall.

The Rev. Delford Sheets, the new pastor of the Aurora Height Community Church, will be given a reception at the church tonight.

The Ballston Citizens Association tomorrow night will receive visitors from the Virginia and Roanoke communities. Among other matters to be discussed will be plans to take part in the water carnival.

SMART LUGGAGE For Autumn Honeymoons

To embark upon their wedding journey with luggage in keeping with their fine apparel, is naturally the aim of both bride and groom. And both of them agree that Becker's is the logical place to make the all-important selection.

The PALAIS ROYAL NOW EXHIBITS

"THE ARABIAN"

from
THE FAIR of THE IRON HORSE
Now Displayed On Our Main Floor!

Thousands of Washingtonians did not get to see the recent centenary exhibition of the Baltimore & Ohio Railroad Company. There is now displayed in our store an exhibit from this spectacular pageant—"The Arabian"—built in 1836—and was the first locomotive to employ night illumination by headlight—and you should see how primitive and ineffective it was!

Then too, there is a window display on Eleventh Street, that shows other interesting relics of long-ago days in the progress of railroading. All have been loaned to The Palais Royal through the courtesy of the BALTIMORE AND OHIO RAILROAD.

Students are especially requested to view this exhibit.

WHY WAGES ARE HIGH.

It takes a Paris bricklayer ten times as long as a bricklayer in Philadelphia to earn the equivalent of an ounce of gold, according to statistics compiled by the National Industrial Conference Board. In the printing trade a hand compositor in Paris must work five eight-hour days to earn the equivalent of the Philadelphia printer's daily wage. In Berlin the craftsman must work nearly four times as long, and the London compositor must work nearly twice as long as the Philadelphian.

Several days ago Newcomb Carlton, president of the Western Union Telegraph Company, attributed the \$1,000,000 wage increase recently granted its employees to modern inventions which have enabled the men to turn out more work. He stated further that at the present rate of progress telegraphers would be earning several times their present rate of pay within ten years.

The fact that the American workman is paid at a higher rate than his European brother is attributable largely to the greater use of automatic machinery in the United States. Wages and production are closely linked together. Without greater productivity, which may be interpreted also to mean more economical method, wages can not advance. This fact was largely overlooked in the obstruction and disorder that followed the original introduction of automatic machinery. Labor then saw only that its jobs were being supplanted by machines. It did not realize that the man with a machine to labor with him would be more productive, and hence able to command a better wage.

The Western Union has been making greater use of automatic machinery during the last few years, and the pay envelopes of its employees are reflecting the innovation. A similar development has been going on in all other trades. Extension of the use of automatic machinery is of benefit to every one.

"TREAT 'EM ROUGH."

According to the War Department there are fashions in munitions of war as well as in the uniforms worn by men of war. During the strenuous days of the civil conflict both sides used the combination of metal scraps known technically as "canister." Long before Fort Sumter was fired upon, canister was recognized as of great value for short range warfare, where the maximum of destruction from each charge was desired. In the early days of gunpowder the smooth-bore weapons of that time were loaded with great charges of scrap of all sorts of metal. Anything that would kill or mutilate the foe was good enough. Now the shot for a long-distance piece, one of the Navy's 12-inch shells, for example, is as carefully "tooled" as the mechanism of the weapon itself.

Canister, however, is in a stage of resurrection. Until recently the department had failed to find a suitable weapon for the 37-millimeter gun tank in performing the work for which it is primarily employed, namely, attack upon machine gun nests, other tanks and like objects. It was found during the late war that it is often important that a tank should be prepared to attack personnel. Therefore the department decided to test out the old familiar canister shot. Early tests failed to develop a canister that was sufficiently certain in its effect to warrant its adoption. But now a new canister developed by the ordnance department can be used effectively against personnel, which is the polite way of designating the other fellow, at ranges of 25 to 100 yards. This is enough for the purpose of the Tank Corps, that purpose being to "treat 'em rough." It is surely rough treatment to fire a canister full of scrap at a nest of machine gunners, even when the nest is filled with enemy "personnel." Thus war is bringing into use again a brand of ammunition that was supposed to have reached the stage of innocuous desuetude long ago.

A DANGEROUS FRENCHMAN.

Ten years ago it would have been thought the day could never come when a Paris dressmaker would come beseechingly to the United States to ask the women of this country to pay some heed to the fashions of Paris. Yet this is the acknowledged purpose of Paul Poiret, Rue de la Paix, who recently arrived in New York. The famous couturier related his sad story in despairing fashion to the ship news reporters. American women, he said, refuse to abandon short skirts. Parisian efforts to lengthen them one year and shorten them up the next have been ignored for five years. The dressmaking ateliers of Paris are filled with desolation in consequence. Something must be done, and the trip of M. Poiret is the greater.

It is, of course, possible to regard the confession of the Parisian fashion expert with a feeling of domestic patriotism. It is a splendid thing that American women not only follow their own dictates in matters of fashion but find in home markets what they used to seek abroad. It would, however, probably be better to wait before engaging in such congratula-

tions. Poiret is to make a tour of the country. At each appearance he guarantees to fashion upon the platform a dress suited to the individuality of some member of his audience. Except for the essential work of the seamstress, it will be a completed creation.

American women may be able to resist such a seductive method of approach, but there are no assurances that this is to be the case. A few snips of the scissors and a pin here and there may charm them back to the shops of France. M. Poiret is in his present role a dangerous man, despite the lugubrious mien with which he advances to the attack.

TARIFF INQUISITIONS.

Ever since the Tariff Commission decided that it was necessary to send spies into the "enemy's territory" to ascertain the cost of production of goods exported to the United States there has been a growing feeling of resentment in those countries. On several occasions recently the protests against the visits of the agents of the commission have been so loud and emphatic that the President has been compelled to take cognizance of them.

Nor are these criticisms confined to foreign manufacturers and producers, for Americans who have called upon the commission to recommend that the flexible clause of the tariff law be used for their protection have chafed under the delays that inevitably follow the ordering of the spy force to the countries from which competing products are imported. In one instance, at least, a manufacturer, after waiting more than a year for a response to his appeal for protection against ruinous European competition, was compelled to abandon manufacture and scrap his plant.

The Department of Commerce maintains a large force of commercial agents who gather information from all over the world without creating that feeling of antagonism that is created by the Tariff Commission's methods. The reports of these semidiplomatic representatives of the Commerce Department, being always available, should furnish the commission with all necessary information. That is the view of Attorney General Sargent, who, in response to a request of the President for an opinion, holds that foreign investigations to determine the costs of production in cases arising under the flexible clause of the tariff are unnecessary, and that the commission may rely upon other sources of information, such as customs invoices, the reports of the Department of Commerce, and similar data which are available in this country.

The opinion of the Attorney General ought to lead to the elimination of expensive journeys abroad, thereby materially reducing the expense account of the commission. The abandonment of offensive inquisitions would also lead to better understanding between the United States and foreign governments, and a material reduction in the delay in reaching decisions when appeals are made to the commission for higher duties under the flexible tariff—on window glass from Belgium, cherries from Italy, and corn products from Argentina, for instance.

WHAT PRICE BEAUTY?

If the figures issued by the Woman's Bureau of the Department of Labor are correct, the annual cost of keeping the American woman the most beautiful in the world exceeds the war debts owed by half a dozen countries of Europe to the United States.

According to the figures just issued by that very active division of the Department of Labor the female of the species is far more costly than the male, when it comes to the amounts paid out to maintain the pulchritude that is the pride of American women and their male relatives. The bureau's statisticians find that the beauty parlors, which are now found in every city and every village, take in as fees not less than \$5,000,000 every day, and that the total cost of beautifying girls between the ages of 8 and 80 exceeds \$1,825,000,000 every year.

It might be assumed that the workers in the beauty shops which show such a vast turnover are among the highest paid "artists" of the labor world. But such is not the case. The beauty makers are compelled to work long hours, irregularly, and of the great sums that pass into the money tills of the beauty shops less than one-third is retained by the women who do the work. In June last, the reports show, the average weekly wages of these artistic women was only \$17.37.

"The vanity of the American woman," says the report, "is taking millionaires, but not among those who do the massaging, manicuring and marcelling." The real money in beauty culture is to be made by owning a shop or by manufacturing cosmetics. Recent investigations in New York reveal that manurists average only \$15 a week and that the best returns that can be expected by a real good manucr or "finger waver" is \$35 or \$40.

Scoffers may howl in rage over the expenditure of nearly \$2,000,000,000 each year for the beautification of wives, sisters and sweethearts, but most of the males with good eyesight will hold to the opinion that the results justify the cost.

THE GASOLINE TAX.

All except four States exact a tax on gasoline. This tax ranges from 1 cent to 4 cents a gallon, and there are few motorists to complain of the tariff, because in almost every instance the funds thus collected are expended in the building and maintenance of highways.

New York is one of the States that have not yet enacted legislation to this end, so that the traveler from Washington finds that while he is called upon to pay as much as 25 cents for a gallon of high-grade "gas" in Maryland or Pennsylvania, he gets the same grade exactly for 19 cents as soon as he crosses the New York State line. This is due partly to the absence of the gasoline tax and partly to discrimination in favor of New York by the gasoline producers.

For several years the commissioner of public works in Albany has urged the legislature to impose a tax on gasoline. Up to the present time, however, the opposition to the proposal has been so strong that every effort on the part of the State government in this direction has been futile. The opposition comes from two forces: First, the car owners in the big cities, who oppose the tax because it is proposed to use all the proceeds in building and maintaining the country highways; and the second, those members of the legislature who fear that the funds would not be all expended in the right direction.

Colleges must be run by the faculty—not by the student body. Student government is highly creditable and beneficial, provided it restricts itself to such matters as fall within its province. When it attempts to usurp functions that rightly belong to the president and the administration it should be disciplined, like any other youthful outburst.

portion of them would find their way into the general fund of the State.

It is because the constitution of the State prohibits taxation for a specific purpose that is not alike beneficial to all the civil divisions, and that the gasoline tax, as proposed, would not be expended on the streets of the incorporated villages and cities, that there has not yet been devised a tax plan that meets general approval. A few days ago, however, at a general meeting of members of automobile clubs and associations the principle of the gasoline tax was heartily indorsed.

But—and there's the rub—the advocates of such a tax insist that the funds thus collected, which will amount to \$10,000,000 or \$20,000,000, according to the rate, shall all be used in the improvement of the highways. Before this can be assured the constitution must be amended, and that can not be accomplished in less than two years. It seems probable, however, that New York will eventually join the other States in taxing the fuel of cars using the highways, as the best means of securing funds with which to maintain those thoroughfares.

MAJ. GEN. DICKMAN.

Maj. Gen. Joseph T. Dickman died yesterday in Washington following a heart attack. He was graduated from the United States Military Academy in 1881 and was commissioned a second lieutenant of cavalry the same year. For 45 years he served as an officer of the United States Army, having been retired in October, 1921.

Gen. Dickman was one of the outstanding soldiers in the World War. During his earlier service he saw duty in China and the Philippines. On March 4, 1918, he went overseas with the First Division. He saw service in the Aisne defense, the Chateau Thierry sector, the Champagne-Marne defenses, the Aisne-Marne and the Meuse-Artois offensives, later taking command of the Third Army, which he organized and led into Germany. Upon him was bestowed the American Distinguished Service Medal, the French Croix de Guerre and the Panaman Medal la Solidaridad. He was also admitted, in recognition of his service in France, to the Legion of Honor, by France; the Order of Leopold, by Belgium, and the Order of the Crown, by Italy.

His life, extending through the biblical three-score years and ten, was devoted entirely to the service of his country. Few men have been privileged as he has to dedicate their lives thus to service. His memory merits well the homage of the Nation.

MUSCLE SHOALS.

Senator Norris, of Nebraska, during his term of service as chairman of the committee on agriculture, opposed all efforts to dispose of the Muscle Shoals power plant to any private corporation. At one time he believed that the power developed at the dam might be used to advantage in the fixation of nitrogen from the air for the purpose of manufacturing fertilizer. But Senator Norris has changed his mind as to the desirability of using water power for such a purpose.

"I am convinced that it is economically unsound to try to use water power to get nitrogen out of the air," Senator Norris now says. But he is still firmly of the opinion that it would be unsound, commercially or otherwise, to permit the power of the Tennessee River, which has been harnessed at Muscle Shoals, to fall into the control of any private individual, company or corporation. Only the Government should operate that great works, in the opinion of the senator. He fears that any other policy would inevitably lead to the control of the works by the "power trust" and the exploitation of the consumers of power.

Senator Norris at present is studying the nitrate fixation plants which chemical corporations have established in West Virginia and Virginia. But no matter what may be developed in the way of knowledge of nitrogen fixation, Mr. Norris is unalterably opposed to the leasing of the Muscle Shoals plant to any corporation at any time, or under any circumstances. The Government must operate that plant if it is to be operated at all. The fact that Government operation of the railroads for three years cost the taxpayers about \$600,000,000 more than the earnings of those roads and that the ships operated by the United States Shipping Board set the taxpayer back several millions each year "cuts no ice" with the senator. He announces that the Shoals plant will never be operated, if he can prevent it, by any other than officials and employees of the Federal Government.

Senator Norris at present is studying the nitrate fixation plants which chemical corporations have established in West Virginia and Virginia. But no matter what may be developed in the way of knowledge of nitrogen fixation, Mr. Norris is unalterably opposed to the leasing of the Muscle Shoals plant to any corporation at any time, or under any circumstances. The Government must operate that plant if it is to be operated at all. The fact that Government operation of the railroads for three years cost the taxpayers about \$600,000,000 more than the earnings of those roads and that the ships operated by the United States Shipping Board set the taxpayer back several millions each year "cuts no ice" with the senator. He announces that the Shoals plant will never be operated, if he can prevent it, by any other than officials and employees of the Federal Government.

It is a wise policy to keep the Senate in the dark as to what the senator is doing, and so throughout our

lives we deny ourselves pleasures and liberties and advancements and complain of our hard lot, while all we need to make our lives abundant is the common sense and courage to go ahead and do the things we wish to do.

It is silly to lie under an apple tree and pray for a wind to shake down the fruit. The way to get fruit is to pick it.

Perfection in courtesy is reached when a drug clerk sells a postage stamp and offers to wrap it.

The next Legion meeting will be in Texas, where the guests and not the hosts will do the frisking.

California is merely following the example of Moses. When he found the land was dry, he planted grapes.

CAPITAL SOCIETY EVENTS

THE President and Mrs. Coolidge and their guests, who cruised on the Potomac Saturday afternoon, returned early this morning.

The Ambassador of Mexico, Senor Don Manuel Tellez, who is in his home in Mexico, is expected to return in a fortnight.

The Minister of Panama and Senora Alfaro have issued invitations to a reception at the legation on November 3, from 8 to 10 o'clock, in celebration of the anniversary of the independence of Panama.

The Minister of Czechoslovakia, Mr. Fierlinger, will entertain at dinner November 2 in honor of the Assistant Secretary of the Treasury and Mrs. Charles S. Dewey.

Polish Envoy to Entertain.

The Minister of Poland and Mme. Ciechanowska have issued invitations for a dinner on Friday in honor of the retirement of the Secretary of the Treasury and Mrs. Charles S. Dewey who will sail early next month for Poland, where Mr. Dewey will be financial advisor to the Polish government.

The Minister of Bulgaria, Mr. Radell, will be joined on November 3 by Mme. Radewa, who will sail this week from Europe.

The Secretary of Labor and Mrs. Davis entertained on Saturday evening in their home on Massachusetts avenue. They had eighteen guests.

The Assistant Secretary of the Navy, Mr. Theodore Douglas Robinson, and Mrs. Robinson will entertain at dinner November 3 in honor of the retiring Assistant Secretary of the Treasury, Charles S. Dewey and Mrs. Dewey.

Cravens Hold Reception.

Capt. Thomas Tingey Cravens, director of naval communications, and Mrs. Cravens entertained yesterday at a reception in honor of the wives of the foreign delegates to the Radiotelegraphic Conference.

Among those invited to attend were: The president of the conference, the Secretary of Commerce, and Mrs. Hoover, the Secretary of the Navy, and Mrs. William B. Castle, Jr., the Assistant Secretary of the Navy, Mr. Theodore Douglas Robinson, and Mrs. Robinson; the Assistant Secretary of the Navy for Aeronautics, Mr. Edward P. Warner, and Miss Elizabeth Warner; the Assistant Secretary of the Treasury and Mrs. David T. Smith, the Secretary of the Treasury and Mrs. Sanchez-Latimer, the Minister of Uruguay and Mrs. Varela; the Minister of Colombia and Senora de Olaya; the Minister of Panama and Senora de Alfaro; the Minister of Honduras and Senora de Borgan; the Minister of Salvador and Senora de Lima; Admiral and Mrs. Edward W.

Eberle; Mrs. Henry A. Wiley, wife of the commander in chief of the U. S. Fleet; Col. F. F. Purves, chief of the British delegation to the conference; Sir John Joyce Broderick, K. B. E., C. M. G., Commercial Counselor of the British Embassy, and Lady Broderick; Capt. L. F. Blandy, D. S. O.; Commander E. C. Travis, R. N.; Capt. F. Loring, R. N.; Maj. C. W. Home, Royal Marines; Capt. A. L. Harris, Royal Signal Corps; Commander E. A. John, R. N.; Capt. E. W. Money, O. B. E., R. N.; Capt. H. M. Cleminson, Mr. and Mrs. W. A. Souter, Mr. and Mrs. F. S. Hay-

Brown passed the summer in England and since her return to this country has been at her country home, Sunset Hill, Beverly Cove, Mass.

Senor Rodriguez, of Venezuela, who has been visiting in Washington, will go to San Antonio, Tex., today to continue his studies as an air pilot.

Dr. William Gerry Morgan returned to the city yesterday from a hunting trip in Alaska with Dr. Reginald Walker and Dr. Harlow Brooks and Mr. Walter G. Dyer, of New York City.

Shower for Miss Hight.

Miss Betty Ridsdale will entertain at a shower this afternoon for Miss Barbara Hight, and this evening a French Laundry Gore will have a buffet supper for Miss Hight and her fiance, Mr. Charles Hayes.

Mrs. Cushing Brant entertained at a shower yesterday at her home near Alexandria. She will be at home after November 1 at 1919 Nineteenth street.

Miss Adelaide Douglas, who is visiting in Atlanta and Birmingham, will return in two weeks.

Mrs. John Capers was the guest last week of her cousin, Mrs. James F. Ferguson, at her home in Baltimore.

Mr. and Mrs. Joseph J. Morsan, of Chicago, who have been here for several weeks, will go to Atlantic City today.

Mrs. Roy K. Moulton, of New York, was in Washington last week to attend the board meeting of the Daughters of Founders and Patriots of America.

Mr. and Mrs. G. F. Ravinal, of Boston, who are passing their honeymoon on a trip through the South, are at the Carlton Hotel for several days before motoring for Richmond, Va.

Wedding Date Announced.
Miss Margaret Lewis Shelton, whose engagement to Mr. John Brown McCarty, of New Orleans, has been announced by her parents, Mr. and Mrs. Thomas L. Shelton, has selected November 10 as the date of her wedding. The marriage will take place at the former home of the bride's mother in Dalton, Ga.

Mrs. Frederick T. F. Johnson has returned to The Mendoza for the fall and winter after a stay in Atlantic City.

Mr. and Mrs. Howard Payne Brown, of 2301 Cathedral avenue, celebrated their fifth wedding anniversary on October 19 at the home of Mr. and Mrs. A. Clark, Jr., in Lanier place, when

Mr. Fred T. Living is registered at the Hotel Wolcott, New York.

The Phi Mu Sorority will give a bridge party and supper in the Carlton Hotel this evening. Members of the sorority who have taken tables are: Miss Maxine Alverson, Miss Catherine Ban-

JOCKEY B. MARINELLI ENDS HIS LIFE WITH GAS

Well-Known Eastern Rider Had Been Appearing at the Jamaica Track.

COTTON FILLS KEYHOLES

Special to The Washington Post.

New York, Oct. 23—Little Bennie Marinelli, the jockey, known to thousands of racegoers as one of the best riders in America, has ridden his last race.

Broken in health and spirit, as well as financially, with huge threats from the powers-that-be in racing of being ruled off the turf for several recent questionable rides, Benny decided that life was futile and turned on the gas. His body was discovered this morning by a fellow roomer in a furnished room in a house owned by Mrs. Billie, a St. Paulite, in New York.

The diminutive jockey had engaged the room only two days previously. Early Saturday morning he galloped the horse of A. Swenke, at the Jamaica track. Returning to his room shortly after 7 a. m., he informed a friend he intended to resign. He didn't have to ride Everglade, his employer's horse, in the third race at the Empire track, Yonkers, that afternoon.

"I'm going to stabb my foot hunting," he said.

Police investigation disclosed he had made elaborate plans to insure success in ending his life. Keyholes and crevices in the windows had been stuffed with cotton to seal his death chamber.

A note which he wrote apparently but a few moments before the gas rendered him unconscious had preyed on his mind.

"Don't let me come back," he wrote in his last letter, addressed to his brother, Alfred, of Newark, N. J. "She cares for me no longer, my health is broken and I'm tired of living."

Marinelli was born 25 years ago in the East and had come to prominence at the Tia Juana, Mexico, race-track seven years ago. He returned East under contract to E. G. Soule, famous handicapper, and rode a full season before his contract was sold to the Marquette Stable. He rode many races for R. T. Wilson, racing syndicate.

Two years ago he narrowly escaped death at the Jamaica track, when Upson, his mount, stumbled and fell in the path of Fireman, ridden by Mark Faxon. Both boys were heavily thrown and one of the horses, including Marinelli's skull with its hoof. For more than a week he was unconscious, but apparently recovered fully before he returned to the saddle.

U.S. Telephone Official Wins J. Fritz Award

New York, Oct. 23 (A.P.)—John J. Carty, vice president of the American Telephone & Telegraph Co., has been awarded for 1928 the John J. Fritz gold medal, the highest honor bestowed in America for engineering achievement.

The announcement of the award says that Gen. Carty "has probably done more than any other in toward the development of modern telephone engineering." The award was made unanimously by a board representing the American Societies of Civil, Mining and Metallurgical, Mechanical and Electrical Engineers.

LABOR DELEGATION URGES RECOGNITION OF SOVIET REPUBLIC

Yale Educator Says U. S. Has Received "Grossly Misleading" Reports.

RESOLUTIONS ADOPTED AT NEW YORK MEETING

Better Living Conditions Are Reported in Russia Than Ever Before.

New York, Oct. 23 (A.P.)—Resolutions urging the United States to recognize the Russian Soviet republic were adopted today at a mass meeting in Madison Square Garden, addressed by members of the unofficial American labor delegation which recently returned from a two months' tour of that country.

Prof. Jerome Davis, of Yale University, an American, accompanied the delegation, said America had received "grossly misleading" reports of conditions in Russia.

"Russia has really achieved more in the ten years following their revolution than we did in the decade following 1776," he said. "There is much more industrial democracy in Russia than in the United States, he asserted, citing yearly increases in Russian trade union enrollments.

He denied that only communists were elected to office, stating that even in the cities only 50 per cent of those elected to office conformed to the percentage in counties and villages was even lower. As many people vote in Russia as vote in presidential elections in the United States, he said.

Russia should be judged solely on the question of whether better living conditions have followed the revolution, said Prof. Paul Douglas, of the department of economics of the University of Chicago, who also accompanied the delegation as an advisor.

Production Is Higher.

Industrial production is found to be 5 per cent higher last year than in 1913, although the quality was inferior. He said that last year 10 per cent was added to the value of the nation's industries and that, although wages were only a fourth to a third as high as in the United States, they were higher than the wages given in Russia. Since the formation of the Soviet government, he said, the wages of miners have been increased 150 per cent and railroad wages have jumped 87 per cent.

"As a whole," Prof. Douglas said, "the Russian worker, taking into consideration his level of earnings, is guaranteed more than any other worker in the world."

"What Russia needs is peace and security, and it is for this reason that I favor the recognition of Russia by the United States," he said. "The Russian revolutionaries are not to be blamed for a crime to let it go down, not only because it is the most interesting experiment in history, but because it gives every indication of ultimate success."

Labor's Aid Is Urged.

John Brophy, a member of the United Mine Workers of America, and Albert P. Coyle, secretary of the delegation, urged labor to do all in its power to bring about recognition of Russia. Coyle read a message from James Maurey, president of the Pennsylvania State Federation of Labor and a member of the delegation, urging recognition as "absolutely necessary for world peace."

A challenge was read from Silas B. Axtell, a lawyer who had described himself as an "unofficial" member of the delegation, only to die the question of Russian recognition. He suggested the debate be held within 30 days and specified the question as "That the United States Is Right in Not Recognizing Russia." Henry T. Hunt, chairman of the meeting, announced that the debate would be arranged.

Refused by Girl, 15, Man Shoots Himself

Chicago, Oct. 23.—Reginald Andrew, 21 years old, committed suicide by shooting himself in the head this afternoon in the presence of 15-year-old Gertrude Selmer, who had just refused for the fourth time in a week to marry him.

The shooting occurred in the hallway of the Selmer home. Gertrude's mother, Mrs. Peter Selmer; her sister, Irene, and Miss Fern Carlson, a friend, were in room only a few feet away.

PAINTING IN \$500,000 SUIT

Mrs. Andre Hahn (lower right), hopes to prove that she owns the original Da Vinci painting "La Belle Ferronniere," shown above.

Kansas City, (A.P.)—A dispute which has waged in art circles for seven years will be placed before the Supreme Court of New York in November when Mrs. Andre Hahn's \$500,000 suit against Sir Joseph Duveen, international art dealer, comes up for hearing.

Mrs. Hahn, French war bride of a Kansas City Army captain, is the owner of a painting which she asserts is Leonardo da Vinci's "La Belle Ferronniere." Sir Joseph has produced the painting, which is in the Louvre, Paris, to be the authentic Da Vinci and declares that Mrs. Hahn's painting is a copy.

The controversy began in 1920. Mrs. Hahn, who was Mlle. Andre Lardoux of the Lardoux family of St. Malo and Dinard, niece of the Marquis de Chambord, of Brittany, inherited the painting during the war she fell in love with Capt. Harry Hahn, of Kansas City, and they were married.

ENGLISH DEPORTEES BEATEN IN "REVOLT"

Guards at Ellis Island Lodge Two Leaders in Padded Cell After Battle.

Special to The Washington Post.

New York, Oct. 23.—An English "revolt," featured by smashed windows and developing into a free-for-all battle, ended quickly and disastrously at Ellis Island today in Uncle Sam's detention pen for alien criminals ordered deported.

After weeks of sullen growling, James Hume and Remley Reid, two Englishmen who had languished there four months, started the outbreak when they suddenly shouted:

"Well, here's the way we'll get attention!" They seized stools and proceeded to smash windows, break furniture and wreck the pen, with 23 other deportees in it. Michael Marino, the lone guard, watching these most undesirable of undesirables, leaped into the fracas. With other guards, he subdued the two leaders, who were beaten until they fainted. Hume and Reid were chucked into the padded cell at the island—the cell designed when Louis the Lame, a wrecker himself, was entertained at Ellis Island years ago.

Ellis Island officials declared Hume and Reid have served prison terms here, but their records were not available today. State Department red tape has delayed their deportation.

Mr. Stewart told police that his son, William, 15, disappeared just before Christmas last year after being intrusted by his employer with the delivery of some jewelry to a firm in Maiden Lane. Later in the month he told police that he had lost the package in the subway and that he feared no one would believe his story. He said he would work hard and earn the value of the lost gems before he would return.

Mr. Stewart has saved enough to pay the jeweler, who says he believes William to be honest and will not prosecute him if he comes home.

Osteopaths to Meet In Capital in 1928

The Middle Atlantic States Osteopathic Association, which closed its convention in Richmond, Va., Saturday night, voted to hold its next annual convention in Washington, October, 1928.

It was invited to do so by Dr. Riley D. Moore, of this city.

Feel Stiff and Achy?

To Be Well the Kidneys Must Thoroughly Eliminate Waste Poisons From the Blood

DOES every day find you lame, stiff and achy? Do you feel tired and drowsy, suffer nagging backache, headache and dizzy spells? Are the kidney secretions scanty and burning in passage? Do you wonder what is wrong?

Know, then, that these are often signs of improper kidney action. Active kidneys free the blood of poisonous waste. Sluggish kidneys allow acid poisons to remain in the blood

and upset the whole system. If you have reason to believe your kidneys are acting sluggishly, assist them by using a tested diuretic.* Doan's Pills have been winning new friends for more than forty years. They have established a nation-wide reputation. Are recommended the country over. Ask your neighbor!

*Diuretics are agents which increase the secretion of the kidneys.—Encyclopaedia definition.

I. W. W. ARE DETERMINED TO CLOSE STATE MINES

Men Will Go En Masse to More Colorado Workings to Spread Strike.

CARAVAN IS PROPOSED

Walsenburg, Colo., Oct. 23 (A.P.)—Apparently determined to stop all mining activity in Colorado through the medium of picketing, striking coal miners, led by members of the Industrial Workers of the World, pledged themselves to start an intensive picketing campaign at a meeting in the southern Colorado town.

Having told Gov. William H. Adams that no troops or financial help were necessary to cope with the situation, Huerfano County commissioners were scheduled to meet with Sheriff Harry Capps Monday morning to map out a line of picketing.

While the miners in a mass meeting at Ludlow, 27 miles south of here, were

giving unreserved support to the picketing movement, the miners in the north field decided to go on strike to the Fremont County mines to enlisted the sympathies of the workers there. As yet Fremont County has been unaffected by the walkout.

At a mass meeting at Lafayette today, 1,000 miners and their wives, some 30 speakers, including A. S. Embree, national organizer for the I. W. W., and K. Clemens, chairman of the strike committee there, urged the formation of a caravan of miners to proceed to the Fremont County mines, about 100 miles from Lafayette and north of Walsenburg.

\$1,000,000 Estate In a 100-Word Will

Beacon, N. Y., Oct. 23.—The 100-word will of Rhinelander Waldo, former police commissioner of New York, disposing of more than \$1,000,000, has been probated in Cold Spring, N. Y. Putnam County surrogate's court announced today.

The entire estate was left to the widow, who is made executrix. The exact value of the late commissioner's property will not be known until the state auditor's tax affidavit is filed. Waldo valued his Putnam County realty alone at \$500,000.

FLOOD AREA AWAITING ENGINEERS' REPORT

Committee Defers Indorsing Any Plan Now for Control of the Mississippi.

DAVIS MAKES AN ADDRESS

New Orleans, Oct. 23 (A.P.)—The tristate flood control committee, representing Arkansas, Louisiana and Mississippi, went on record here today as not committing itself on any particular flood control plan.

Water Department makes public its plan for protection in the Mississippi Valley.

The committee, which met in connection with the visit of Secretary of War Davis to the flood district, said it was encouraged by the work of the Army Engineers in their effort to formulate protection measures to prevent future Mississippi River floods. Gov. Martin of Arkansas, chairman, added that "we do not feel we want to com-

mit ourselves to any definite measure until we know what it contains."

Secretary Davis, in his annual address before the New Orleans flood policy committee, said the Army Engineers "would formulate a general plan for the control of the valley's waters, but it would be devised with elasticity so that specific changes could be made when development necessitated them."

All the levees of the Mississippi and its tributaries would be in as good or better condition than before the flood, the Secretary said. He added that under the flood control plan of the War Department it was the aim to have a greater margin agains greater floods than that of last spring.

Staby, Film Producer, Ends Life by Bullet

Los Angeles, Oct. 23 (A.P.)—Oscar C. Staby, 41, wealthy investment broker and motion picture producer, shot and killed himself at his home here today. Police said they believed Staby took his own life in a moment of despair.

Among the principles contained in the program of the party is that the president general of the party is Musaphia Kemal, its founder, and confers on him the sole prerogative of speaking in the party's name.

Among the principles contained in the program are: To work for separation of religion from state affairs to apply the principle of government by the people and for the people in all branches of national administration and activity; to establish absolute equality of all in the eyes of the law to support expansion of Turkey, to guarantee the right of every child to receive every language, sentiments and opinions among the children of the party.

TURKEY ADOPTS NEW PROGRAM FOR PARTY

Republic Recognized as Future Form of Government by People's Congress.

Constantinople, Oct. 23 (A.P.)—The congress of the People's Party has adopted a new party program, of which the general principles are recognition of the republic as the present and future form of government, the party considering it a sacred duty to protect against all aggression.

The program stipulates that the president general of the party is Musaphia Kemal, its founder, and confers on him the sole prerogative of speaking in the party's name.

Among the principles contained in the program are: To work for separation of religion from state affairs to apply the principle of government by the people and for the people in all branches of national administration and activity; to establish absolute equality of all in the eyes of the law to support expansion of Turkey, to guarantee the right of every child to receive every language, sentiments and opinions among the children of the party.

WIVES OF TOMORROW

By FRANCES MCDONALD

EAR Miss McDonald: Will you please advise me. I'm in a terrible predicament and unable to make up my own mind. Four months ago when Dick T. — proposed to me, I was the most envied girl in our town. He was very good looking, rich, and was on every girl's lips in our neighborhood. I love him very much; he means everything to me.

Now GO ON WITH THE STORY.

CHAPTER IX.

INSTEAD of going home that evening—for Brownell could find her, if she were at the flat—Molly took dinner with him at the office, and then went to a moving picture show.

She sat, rigidly glaring at the screen, her arms folded and her red lips pressed into a thin line.

At 9:30, when she turned the latch-key in the door, Bob was not in sight.

She was certain of it, for she looked constantly in every shadow.

In the morning she came to the office late, on purpose. A glance at Brownell's desk told her that he had been in and had gone.

Her dejected and wretched brought a brisk change from Mr. Franklin to which she made no reply. Not only then but throughout the day she was unusually silent, refusing the invitation of one of the girls to go to lunch and occupying her noon hour with a thorough cleaning of her typewriter—which it did not need.

Brownell came into the office at 2 o'clock, on one of his rare afternoon visits. Molly went to the long row of file cases and busily sorted letters, with no effect whatever. My dearest friend is married and has the sweetest little baby in this world and she says that she is only a mother now. I can't be happy or must I give up the man I love. Do you think he may change his mind when he is older? He is only 21 and I am 19.

Help me please, Miss McDonald. Give me your advice, help me make up my mind.

Yours very truly, "SHIRLEY."

Be in no haste to marry this 21-year-old infant who has caught your childish fancy. Neither of you know what you are about. Your happiness means nothing in his young life and his real action is to be married. He is the sort of raccoon coat you admire so you said yes when he asked you, and he asked you because you had a "line" that was new to him—you were the "home girl" type.

And now you are engaged and you want a raccoon coat much more than a pater familias at 22 and he wants his home girl to step out and show a little speed and forget about that wife-and-mother stuff. That's just why marriage fails. The two people involved set out to make each other over instead of trying to make each other happy.

Don't marry this male flapper. He will develop as he grows up no doubt. But make sure before you say the word that means forever.

JUST FOLKS

By EDGAR A. GUEST

THE OLD PROSPECTOR TALKS.

Gold is found in the hills, and they carried back to the haunts of men.

And two of us came in the early days to pan the streams for the dirt that pays.

And we stuck it out for a time, till he got sick of the game which enchanted him.

And he went back to the town one day to get his gold in an easier way.

He quit these hills and he left me cold. To scramble with men for his bit of gold.

Now some like walls and roofs and rooms. But I like mountains where thunder booms.

And skies and trees and the open plains. Where a man must work for the bit he gains.

So I've stayed right here and I've dreamed my dreams and smoked my pipe by these running streams.

And kept my cabin up here alone. With all this beauty to call my own.

I've taken my gold with pick and pan. And sent it back to be stained by man.

I've wrestled with rocks and streams for mine. And made my friendships with fir and pine.

Now the world down there may think me odd. But maybe I won't seem queer to God.

(Copyright, 1927, Edgar A. Guest.)

Conduct and Common Sense

By ANNE SINGLETON

REGARDING WEDDINGS.

THE letter I answer today is too long to quote; indeed, the lady frankly says she wants to know "everything about weddings." I am trying to reply as much in detail as I can in a limited space, but here, I really think, is a case where more information is required than can be given except in an etiquette book.

To A. D. B., then, as follows. Under no circumstances is it suitable to announce an engagement to a man in process of getting a divorce. You must be sure that he has been made absolute and he is free. I suppose the engagement could be announced publicly as soon as you pleased after the decree had been handed down. The marriage could take place a few weeks later, after which period your State law requires. But I would avoid the appearance of haste.

As to your bridegroom's dresses, it would be perfectly proper for you to have them made as you prefer and present them when your friend is in occasion when you please; you may be generous. The bouquets are always provided, and—unless the bridegroom makes a point of sending them when he sends the bride her flowers—they would be included in the florist's bill for decoration. This is the usual

THE WIFE and CO.

By LYLE HAMILTON.

(Copyright, 1927, by Eugene MacLean.)

While Molly was still smiling over the boss' remarks a hand fell upon her shoulder. She looked up. The fat office manager was standing over her.

opened the parcel. A white box was inside the wrapping. "There!" said he.

"Oh!" she breathed.

She opened the lid of the little box.

"Oh! Oh! Oh!" she cried, and hugged him. "Where did you ever find anything so beautiful!"

The box held a platinum ring with a bit of diamond in it, which Molly kissed as soon as she had finished kissing Brownell.

"Got it at the jewelers," he said, unnecessarily—it would have been a very ignorant girl who couldn't guess where he got it. "Try it on and see if it fits."

"It's bee-yoo-tiful," she sighed, slipping it onto the third finger of her left hand.

It didn't fit, but that made no difference to either of them. It could be exchanged. Bob had made suitable arrangements with the jeweler, he told her.

Neither of them mentioned an agreement they had made long before that there should be no engagement ring. Molly had suggested, and Bob had concurred, after long argument, that it would be better to use the money as

part of the \$500 with which they would start married life. Their present happiness was too great to be disturbed by trifles.

"The darn thing's big enough to go on your thumb," said Brownell, fondly.

"It isn't a damned thing," she contradicted him, "it's a diamond ring."

Ring to her red lips. "But we'd better get one a tiny bit smaller, hadn't we, sweetie?" Shall we go at noon tomorrow?"

The young man's face fell. Molly, observing this, made hasty amendment.

"I'll bet it's," she said, slipping the heavy armchair across the rug for him to sit in. "What is it, honey?"

"It's all right," he said.

"Indeed, I don't let you. You mustn't be taking time from your work to humor a girl's notions. Bobbie, we'll go—well go." She put her forefinger to her chin and thought. The stores were closing at the very hour she herself got through work. "Honey! The office!"

"Yes," he said, "but that's when I come to you, I suppose."

She broke in with a laugh—a rather forced laugh, but bright enough never

to get up a good appetite, of giving him plenty of good food, of having a good, happy, easy, free time for everybody at table and their eating time set aside to eat and rest.

"I was awful hungry, honey boy!"

"I've got a rotten temper," he said.

"You'll forgive me, won't you?"

With the matter thus happily settled they said good night and Molly went singing to bed.

Aldrich started the thing off.

In substance, he was against overfeeding, teasing children to eat, punishing them for not eating, paying them for eating, giving them set amounts to eat and requiring them to eat those amounts, feeding them too much, feeding them colds or other illness who did not want to eat. He was in favor of having the child play enough to get up a good appetite, of giving him plenty of good food, of having a good, happy, easy, free time for everybody at table and their eating time set aside to eat and rest.

He said all right; if he didn't eat, he ate all right. But no beefing and nagging under any circumstances.

While some foods were better for children than others, he was opposed to any direct methods for promoting the use of the one, or for opposing the use of the other.

Fifty years ago coeducation was a live issue. Now that we have it everywhere, it is apparent that the average girl chooses a co-educational college so as to put herself before the opposite sex and increase her chance of landing a man in the best marriage market in the world," wrote a reader.

"Is it?" I am married, after all, what nearly every normal human looks forward to. And, granting that, why not select the boy or girl with whom one has gone to school?

He said all right; if he didn't eat, he ate all right. But no beefing and nagging under any circumstances.

While some foods were better for children than others, he was opposed to any direct methods for promoting the use of the one, or for opposing the use of the other.

Fifty years ago coeducation was a live issue. Now that we have it everywhere, it is apparent that the average girl chooses a co-educational college so as to put herself before the opposite sex and increase her chance of landing a man in the best marriage market in the world," wrote a reader.

"Is it?" I am married, after all, what nearly every normal human looks forward to. And, granting that, why not select the boy or girl with whom one has gone to school?

He said all right; if he didn't eat, he ate all right. But no beefing and nagging under any circumstances.

The next day, and the next, passed comfortably. Molly was busy; so busy that at night she was almost too tired to eat. Still, the work was pleasant, and Aldrich was developing into a more and more pleasant factor in the office. He knew what he wanted and insisted on getting it, but he never gave contradictory orders, nor did he ask Molly to attend to anything but his own correspondence and reports.

This last feature of the work began to bother Molly, and she took the job to another office.

"If you want any errands done," she said, "I'll be glad to do them. Just like a man would."

"Yes?" he said. "And it would take you six times as long to do them as it would take a man. Thanks. I'll use the office boy. If it's something he can't do, I'll send somebody else."

"But I can walk as fast as anybody," protested the girl.

"Quite true," said he. "And by the time you've fixed your hair, and put on your hat and found your handbag, you're all alone giving orange juice and cake out and in looked in fourteen shop windows and stopped in five and ten-cent store to buy something you'll just remember, and run into somebody you knew and had a chat with him—or her—the office boy could have done the errand and gone to sleep again. I've been timing female errands and it takes 20 minutes now, young woman. Let's name them."

He returned to the trade paper he was reading, and Molly retreated to her own desk.

She was not annoyed. She even giggled a little. More than once she had been annoyed by the office boy's ways.

The remedy lay in educational prophylaxis, which means in persuading parents to let children alone to go to school to educate themselves on proper food values, vitamins and such; to let their children live more naturally, to play harder, to think less of and about themselves, and then to eat as nature directs; to let them "grow."

While she was still smiling over the boss' remarks, a hand fell upon her shoulder. She was standing over her.

Continued Tomorrow.

Mr. Work's Pointer On Auction Bridge

THERE are many Bridge players who, when the auction is complicated, have considerable difficulty in determining whether their partner's doubles are business or informative. Most interpretations of a double are generally attended with difficulty; it matters little whether a double intended to be informative is taken to mean business, or the reverse; the result is equally expensive.

This week our attention and test will be upon the complications of doubles. The bidding situations are given today, accompanied by the usual answer blank; each day during the remainder of the week two of these cases will be answered and discussed.

No. 1. South one Heart, West double, North two Hearts, East pass, South pass, North two Diamonds, South two Hearts, West double.

No. 3. South one Heart, West one Spade, North pass, East pass, South two Hearts, West double.

No. 4. South one Heart, West double, North two Hearts, West pass, South three Hearts, West double.

No. 5. South one Heart, West double, North two Clubs, East pass, South two Diamonds, West double.

No. 6. South one Heart, West double, North pass, East pass, South one No Trump, West double.

No. 7. South two No Trumps, West double.

No. 8. South one Heart, West double, North one spade, East double, South two Hearts, West double.

No. 9. South one No Trump, West two Spades, North double.

No. 10. South one Spade, West pass, North pass, East three Hearts, South double.

ANSWER BLANK.

1. 2. 3.

4. 5. 6.

arms are going in opposite directions simultaneously.

2. Raise the arms before you at shoulder level, with the palms inward. Throw them vigorously as far to the back as possible. They must be kept as straight as possible.

I believe this answers other similar queries from readers.

It is rather difficult for me to give advice about weight without knowing more about the person's bony structure and general appearance, but I should say that your weight is just about right for your height.

1. Raise the right arm high above the head and swing it in a complete circle before you. Repeat with the left arm. Next, raise both arms and swing them in a complete circle before you. Finally, swing both arms in a complete circle before you. Repeat with the left arm to the right and with the right arm to the left, so that both

arms are going in opposite directions simultaneously.

2. Raise the arms before you at shoulder level, with the palms inward. Throw them vigorously as far to the back as possible. They must be kept as straight as possible.

I believe this answers other similar queries from readers.

HOW TO KEEP WELL

By Dr. W. A. EVANS

A GROUP of fathers engaged in casual conversation, and therefore jumping about from subject to subject, like goats on a rock pile, happened to hit on the appetites of children as a matter for casual discussion. Several of them said their children were short on appetites. Their problem was to get their children to eat enough.

Many mothers will give these dads the hat for it! What do fathers know about children, anyhow? On the other hand, mothers will say, "We know our children's appetites and that will prove

that we do know them." By telling the story of their Mary.

As a matter of fact, all these people on both sides were opening the windows to their homes and permitting the listeners to look in.

There are children who are without appetites because of sickness, or because of the great fatigue, or the trouble is with the training. The great bulk of

The Street is a Poor Playground

A heavy truck bound on the business of transporting commodities for the use of you or your neighbors—a driver trained in traffic regulations and to respect the rights of others—a child chasing a bounding ball directly in the path of the oncoming truck—

Prevent Accidents—Respect the Rights of Other People

What Would YOU DO?

OFTEN truck drivers have been face to face with this situation. Frequently they have turned aside---to crash---that life might not be endangered. But THIS IS NOT ALWAYS POSSIBLE. Big, heavy trucks are a necessary part of your life, my life, every one's life---to supply your grocer with his goods, your market with its meat, your iceman with his ice, your dairy with its baby-nourishing milk, your coal and building material---EVERY ONE who serves you and your neighbors depends on trucks, as the cheapest method of transportation, to supply them with their wares for you!

What Could You Do?

YOU, as a consumer for whom every truck driver is a faithful servitor, can do your part to aid in this Safety Campaign by keeping your children off the street! The street is a poor playground at its best. It is designed for traffic and provides right-of-way for traffic! You never heard of a truck leaving the street to strike a child, or any one, within their homes ---have you? Respect their home---the streets on which they travel---and

Teach Your Children to Stay ON the Sidewalk and OFF THE STREET

3 Man O'War Get Named In Race

Crusader, Mars and
Edith Cavell Meet
in the Somerset.

Riddle Star Gets Top
Weight of 130 Lbs.
in Feature.

L AUREL RACE TRACK, Oct. 23.—The \$2,000 Somerset Handicap at a mile and furlong, which features the program of races here tomorrow, has attracted a crack field of six distance racers which includes three get of the illustrious Man o' War.

Crusader, the Glen Riddle Farm's former champion, will match strides in the Somerset with Mars and Edith Cavell, of the Jeffords stable in a duel among the issue of the greatest horse of all time.

The great mare, Princess Doreen, owned by the Audley Farm, will provide a bit of competition. Crusader had drawn top weight for the handicap with 130 pounds and will be ridden by Earl Sander. Mars is rated next best with 128 pounds. Edith Cavell will carry 111 pounds and Princess Doreen is allotted 116.

Crusader, winner of his last start after a series of mediocre performances, worked a fast mile and a quarter on Saturday in 2:09 1-5. Mars was sent a mile and clocked in 1:42 3-5. Gaffman worked the same distance in the same time.

In meeting Edith Cavell Crusader will attempt to reverse a verdict which the Man o' War filly gained over the Riddle star at Havre de Grace last year in a 2-mile race in which Edith Cavell, with 104 pounds up, outstepped the bigget relation, which carried 130 pounds.

ARLINGTON PARK ENTRIES.

FIRST RACE—Seven furlongs; purse, \$1,200; claiming; for 3-year-olds and upward.

1 The Hangman ... 102 1/2 Betty Bell ... 100

CRACKER JACK TO START THE RACE

3 Man O'War Get Named In Race

Crusader, Mars and
Edith Cavell Meet
in the Somerset.

Riddle Star Gets Top
Weight of 130 Lbs.
in Feature.

AUREL RACE TRACK, Oct. 23.—
The \$3,000 Somerset Handicap
at a mile and furlong, which features
the program of races here tomorrow,
has attracted a crack field of six
distance racers which includes three
get of the illustrious Man o' War.

Crusader, the Glen Riddle Farm's
former champion, will match strides in
the Somerset with Mars and Edith
Cavell, of the Jeffords stable in a duel
among the issue of the greatest horse
of all time.

The great mare, Princess Doreen,
owned by the Audley Farm, will pro-
vide a bit of competition. Crusader
had drawn top weight for the handi-
cap with 130 pounds and will be rated
next best with 128 pounds. Edith Cavell
will carry 111 pounds and Princess
Doreen is allotted 116.

Crusader, winner of his last start
after a series of mediocre per-
formances, worked a fast mile and
a quarter in 1:57.2, and in 1:57.4
when sent a mile and clocked in
1:53.8. Goffman worked the
same distance in the same time.

In meeting Edith Cavell, Crusader
will be forced to reverse a verdict which
the Man o' War filly gained over the
Somerset star at Havre de Grace last year
in a 2-mile race in which Edith Cavell,
with 88 pounds up, outstepped her big-
gest relation, which carried 130 pounds.

ARLINGTON PARK ENTRIES.

FIRST RACE—Seven furlongs; purse, \$1,200;
claiming; for 2-year-olds and upward.

TECH FACES NO EASY TASK IN SERIES, SAYS KELLY

Central Seen As Threat to Favorite

Business May Prove "Dark Horse" in School Race.

Mt. Pleasant Plays Stenogs Tomorrow in First Game.

By MIKE KELLY.

Central High School Coach.

THIS interscholastic football series after being washed out the greater part of the past week, finally got under way with the Tech-Eastern clash which resulted in a decision expected by all the experts—the Tech to the fore.

Two teams turned out yesterday afternoon for a snappy practice held by the Washington Field Hockey Club on the Ellipse. It is probable that a match game with one of the Baltimore eleven will be played next week, although the annual intercity schedule has not yet been an-

ounced. Practices will be held at 4 p.m. on Wednesday, and at 3:30 p.m. on Saturday, and all members are requested to turn out in order that the club can present a creditable line-up in the Baltimore game.

SWIMMING MEET ENTRIES CLOSE.

Entries for the Y. W. C. A. swimming meet to be held at 8 p.m. Saturday, will close tomorrow instead of Saturday as previously stated.

Swimmers will include 20 and 40 yard breast strokes, back, breast, and crawl, 50 and 100 yards swimming, fancy diving, front or back, front or back, and back jack. Contestants must be at least 15 years of age, nonprofessionals, and must have passed the required physical examination.

PRACTICE FOR WOODLOTHIANS.

The Woodlothers have returned to basketball after a short absence from the game and will hold their first practice tomorrow night at 8 o'clock at the Central Community Center.

BLUE TRIANGLE MEET A SUCCESS.

A week-end party and games held by the Blue Triangle group at the Y. W. C. A. vacation lodge in Virginia, Miss Clara Glasgow was chairman of the party committee and Miss Josephine Hoffman and Miss Helen Bowell planned the activities.

COURT LEAGUE MEETS.

Announcement of the final fall meeting of the Washington Recreation League have been sent out for this evening at 8 o'clock, in the third floor clubroom of the Y. W. C. A. on Eastern. The league is the most popular in the country and there will be plenty of competition ahead for Hardell's men and even has hopes of the Central squad furnishing it.

Eastern is the next hurdle ahead of Tech and even though the Georgetown School seems pretty hard hit by injuries and eligibility, no doubt a week from now Ahearn's club can be expected to extend Tech probably more than Eastern did.

Just now one thing that would please Western's followers most would be a kindly storm next Friday, thus allowing time for newcomers to join the Red and White squad and carry the big games with Central and Tech to be with in reach of success.

Western was fortunate, if one may believe rumors of the weakness of the team, in not needing Central last week, but a good break once in a while.

Eastern was asked to meet the team generally picked the likely winner, in its first game of the series, and the Eastern line gave a pretty creditable effort, but the other two teams in the first Tech downounds resulted from a questionable bit of judgment on the part of Eastern's quarterback and came at a time when Eastern was going along very well; this placed the team in the hole early in the game and no doubt hurt the club's morale.

Guyon's squad will be considerably aided by the return to regular status of several players now injured, and the team is in the lead as the only one to be played by Eastern in this present advisory, one can not figure Eastern as a set-up from now on and one defeat doesn't mean relegating the team to the bottom of the conference.

All teams are requested to cooperate with the committee in order that the season may be opened promptly and finished before the warm weather destroys enthusiasm for the game, as has happened in past years.

Washington, Stanford Lead Coast Elevens

San Francisco, Oct. 24 (A.P.)—A diminishing list of undefeated elevens found five conference teams grouped in the favored class today as the result of Saturday's play.

Washington and Stanford, with victories over Washington State and Oregon State, respectively, clinging to select positions, while Idaho kept pace by overpowering Montana, 42-6. Standings of California and University of Southern California remained unchanged, but both completed the day with nonconference wins written into the records.

A crowd of 85,000 jammed the stadium at Seattle, where the Huskies of the first team to win the Pacific Coast Conference, 14-0, to win the annual classic; and at the same time to establish themselves as dangerous contenders for the coast championship.

Coach Glenn Warner sent a fiery telegram to the nation's press, and when the rumblings of the future battle ended the score board read: Stanford, 20; Oregon State, 8.

Idaho smothered Montana with an attack that netted single touchdowns in the first, second and third and three more in the closing quarter.

California, like Washington, undefeated and untied, strode to victory over one of the strongest teams ever assembled for the colors of the San Francisco Olympic Club. Coach Roy Jones followed the example of Coach "Nile" Price, of California, by giving his University of Southern California regulars a rest, but his subordinates made up for it with a 51-0 victory over the small school over the large school usually peeps things up for quite some time.

The Central club had been coming along in good shape and what seemed a sure victory was snatched away, taken on a rosier hue of late. The team has a spirit and dash to it that pleases any coach and though eight of the regulars are playing their first series of games their work has been to strive to do their best and the team has possibilities of rising to the heights.

Judging from the attendance at the opening game, the series is creating wide interest this year and the big games ahead should be well worth the time devoted to interscholastic competition.

Waverly Eleven Wins From Fort Washington.

Frank Kersey's Waverly Eleven defeated the newly organized Fort Washington Team yesterday in a closely contested game, 9-7.

Goldsmith scored the touchdown and also kicked the point for the winners. Add to this that Kersey made a safety. Doherty and Matthews also figured prominently for the winners. Scotts accounted for the points for the Soldiers.

The Waverly had a meeting to night at the Mobil Building at 8 o'clock. All players are requested to report.

DIESEL AGAIN WINS MID-ATLANTIC TITLE

COONTINUED FROM PAGE 18.

He held out 8, Diesel scoring a 5, and although he lost a stroke on the second, when he hit the green and holed out in 4. McLeod secured a par 5, he had two strokes advantage when the players stood on the last tee. McLeod was short of the green with a 6, while Diesel was with a 4, and Diesel was with the green with an iron after his long drive.

Diesel pitched up to the cup and got his 4, while Diesel, putting up to about 18 inches from the pin, missed his 6, and hit a 5, and holed out in 4. McLeod secured a par 5, he had two strokes advantage when the players stood on the last tee. McLeod was short of the green with a 6, while Diesel was with the green with an iron after his long drive.

PINEY BRANCH SPLIT OVER LOCATION FOR FIRE ENGINE HOUSE

Citizens Association Called in
Special Session Tonight to
Consider Matter.

TENTATIVE SITE CHOSEN ON SIXTEENTH STREET

North Capital Citizens to Hear
Report on Employment of
Married Teachers.

Edgar B. Henderson, president of the Piney Branch Citizens Association, has called a special meeting of the association tonight at 8 o'clock in the Hamline M. E. Church, Sixteenth and Allison streets northwest, to discuss the location of a fire station at Sixteenth and Webster streets.

The association has never taken the matter up for a vote, but it is understood opinion is divided. All feel the necessity of a fire house in that section of the city, though many believe the proposed fire house would seriously affect the beauty and value of Sixteenth street as a boulevard and residential street.

Those who favor the proposition, it is said, will contend that any of the arguments in opposition are in the main "propaganda" and can not be substantiated. A fire station at Sixteenth and Webster, they say, will add to the value of property a block away, and there will be "no permanent depreciation" in any property other than that on each side of it and across the street from it, it was said.

Churches Oppose Proposal.

The Hamline M. E. Church and the Second Presbyterian Church have been enlisted in the fight against the fire station, but, it was said, the arguments that the noise of the fire engines answering alarms will interfere with the services can be countered by the fact that the fire engines now answering the calls in that section make as much noise as would the engines from the proposed station.

Fire Chief George S. Watson last night declared the matter was one the citizens must determine. He said he selected the site he thought while the Sixteenth and Webster streets are the most centrally located spot that could be acquired between the Brightwood, the Georgia avenue and the Fourteenth street stations, he said, and would give the engines a direct run north to Walter Reed Hospital and south to the large apartment houses on Sixteenth street and vicinity.

It is essential not to locate one station too near another, and it is also essential to have a direct run such as Sixteenth street will give, he said. Fourteenth street, he added, is too crowded to place in that and Sixteenth street is much to be preferred to Fifteenth, Seventeenth or Eighteenth streets.

Married Teachers Defended.

The North Capitol Citizens Association at its meeting tonight at 8 o'clock in the United Brethren's Church, North Capitol and R streets, will consider the Board of Education's questionnaire concerning the employment of married teachers in the public schools. Mrs. Van Ness Lawler, chairman of the school committee, which will make a report, declared yesterday she was in favor of having married teachers in the schools as long as "they were efficient." Efficiency, she stated, should be the sole criterion in the employment of a person.

The Georgetown Citizens Association will hold its first meeting of the fall tonight at 8 o'clock in the Potomac Hall, Wisconsin avenue and M street northwest. U. S. Grant 3d will speak. The Red Cross will have a representative there to sit in the roll call.

A number of southern Maryland farmers, headed by L. J. Harrison of Bush Hill, will be guests of the City Citizens Association tonight at the meeting in the Thomson Community Center, Twelfth and L streets northwest, and will give their views on the location of the farmers' market in Washington.

Archbishop Prendergast, president of the association, said last night that they were interested in finding the market located in some central spot which would be accessible to the people of Washington. He said people will not go to some obscure part of the city to buy vegetables.

The association will have the annual election of officers at the meeting. Edwin S. Potter, director of the extension service of the Associated Charities, will speak on "What the Associated Charities Mean to Washington."

Episcopal Rummage Sale Begins Tomorrow

The board of managers of the Episcopal Home for the Aged will hold a two-day rummage sale beginning tomorrow morning at 9 o'clock at 1008 F street northwest. The sale will close each day at 6 o'clock.

The committee in charge of the sale includes Mrs. W. H. Roland, chairman; Mrs. J. Elvans Mayfield, Mrs. John C. Felt, Mrs. W. W. Owens, Mrs. C. F. Shoemaker, Mrs. Thomas Bright, Mrs. Alexander Bull and Mrs. William H. Cross.

Sunday School Head Given Rocking Chair

The Sunday school of Trinity Methodist Episcopal Church, Georgetown, served its 100th anniversary. George R. Cook, who has been superintendent of the school 37 years, was presented with a rocking chair on behalf of the 600 members by Paul B. Cromelin.

The Rev. William J. Thompson, of Marion, N. Y., delivered an address on "The Principles of Religious Education." He outlined the process of learning from birth through manhood.

IN BRIDGE-PLAYING BETROTHAL

Miss Edythe Baker, the American pianist and dancer, who will marry Gerald d'Erlanger, son of Baron Emile d'Erlanger, international banker.

London, Oct. 23 (A.P.)—Bridge playing had a lot to do with the engagement of Miss Edythe Baker, American revue actress, and Gerald d'Erlanger, son of Baron Emile d'Erlanger, member of the famous international banking firm.

D'Erlanger does not care much for the theater, and had seen his fiancee on the stage only once, but he met her repeatedly at Londonbridge parties, and is learning the arts that Cupid played his trump card.

The wedding probably will take place early next year, and Miss Baker plans to give up her professional career as a pianist and dancer immediately thereafter.

Fire Chief George S. Watson last night declared the matter was one the citizens must determine. He said he selected the site he thought while the Sixteenth and Webster streets are the most centrally located spot that could be acquired between the Brightwood, the Georgia avenue and the Fourteenth street stations, he said, and would give the engines a direct run north to Walter Reed Hospital and south to the large apartment houses on Sixteenth street and vicinity.

TROOPS TO MARCH ON TO CAMP MEADE IN SHAM WAR TODAY

Maneuvers Are Designed to
Test Efficiency of Third
Corps Area Machine.

ORDERS FOR TROOPS BEING HELD SECRET

Territory Between Capital and
Baltimore to Be Center of
Action.

Territory between Washington and Baltimore will be the center of theoretical warfare today as troops from Fort Washington, Fort Myer and other nearby Maryland and Virginia bases advance toward a Camp Meade "battle front" in mythical form.

The maneuver is in charge of Maj. Gen. Douglas MacArthur and is designed to test efficiency of the Third Corps Area machine with a view to determining its smoothness of operation in actual warfare.

General MacArthur is to be present at the sham war, and the maneuverers of troops are strictly secret and will remain so until sealed envelopes are opened this morning at the post. Meanwhile, Gen. MacArthur and his staff alone are apprised of the plan of battle.

The problem is somewhat similar to that presented in 1913 when British troops invaded Washington. Operations will be conducted on the theory that Washington has been seized by the enemy, which is now massing its force for an attack upon Baltimore.

5 Trucks to Be Used.

The Sixteenth Field Artillery and the Third Cavalry from Fort Myer and the Twelfth Infantry, from Fort Washington, will proceed to the battle front as soon as orders are opened, but whether their route to Camp Meade will take them through the streets of this city could not be determined.

The Thirty-fourth Infantry will move from Fort Easton by motor truck. Approximately 50 trucks will be required to transport the 1,500 men at the fort who will participate in the movement. They will be given the task of carrying all the food for the men being prepared en route to gain time. It is necessary that they reach their sector tomorrow and be in position for battle Wednesday. It is understood the troops will not go into action until Thursday.

Marine Artillery and Cavalry units will be brought into play to check the advance of the "enemy" upon Baltimore. When the battle is over, Gen. MacArthur will review his troops before they start their march back. Brig. Gen. Frank R. McCoy will command the field artillery brigade during the maneuvers, and Brig. Gen. Thomas Q. Donaldson, the Infantry brigade.

The American government.

The commission adopted, in principle, resolutions dealing with standard forms of consular invoice and other features of documentation at sessions here Oct. 11 and 12.

Following the report of the committee, the Pan-American Commission will be reconvened to consider the secretarial and shipping documents.

The adopted report will be transmitted through the Pan-American Union to governments represented.

The report is to be submitted to the Sixth International Conference of American States at Havana, Cuba, January 16. Delegates to the present conference consist in the main of commercial attaches in Washington, and the American government.
